

FACULTY OF RADIOLOGISTS
ROYAL COLLEGE OF SURGEONS IN IRELAND

COMBINED SPRING MEETING

2ND & 3RD APRIL 2004

The Radiological Society of Ireland
&
The Radiological Section of the Royal Academy of Medicine in Ireland

Venue: Glenlo Abbey, Galway

Faculty of Radiologists, RCSI
10 External CPD Credits Awarded

Combined Spring Meeting, Faculty of Radiologists RCSI, 2004

Friday, April 2nd, 2004

TIME	LECTURE THEATRE	
11:00 - 11:30	REGISTRATION, TEA / COFFEE	
11:30	MEETING OPENS	DR. D. McINERNEY, DEAN, FACULTY OF RADIOLOGISTS
11:35-13:00	SCIENTIFIC PAPERS 1	VASCULAR & INTERVENTIONAL RADIOLOGY
2:00 - 3:25	SCIENTIFIC PAPERS 2	BIOPSY & IMAGING
3:25 - 4:00	TEA / COFFEE BREAK	
4:00 - 6:30	SCHERING LECTURE SESSION	PROSTATE CARCINOMA
19:30 FOR 20:00	DINNER	

Combined Spring Meeting, Faculty of Radiologists RCSI, 2004

Saturday, April 3rd, 2004

TIME	LECTURE THEATRE	
9:00 - 10:45	SCIENTIFIC PAPERS 2	MUSCULOSKELETAL & BREAST IMAGING
10:45-11:45	TEA / COFFEE BREAK	AGM, RADIOLOGICAL SOCIETY OF IRELAND
11:45 - 13:00	LECTURE SESSION 2: REVIEW TOPICS	
13:00	MEETING CLOSES	DR. D. MCINERNEY, DEAN, FACULTY OF RADIOLOGISTS
19:30 FOR 20:00	DINNER	
	MEETING ENDS	

JUDGES:

THE FACULTY WISHES TO THANK **DR. C. ROCHE** (SCIENTIFIC COMMITTEE) AND **DR. M. MCNICHOLAS** (PRESIDENT, RADIOLOGY SECTION, ROYAL ACADEMY OF MEDICINE IN IRELAND) FOR ORGANISING THE POSTER AND ORAL PRESENTATION JUDGING PANELS.

POSTER JUDGES: **DR. C. ROCHE, DR. J. BUCKLEY, DR. M. MCNICHOLAS.**

ORAL PRESENTATION JUDGES: **PROF. P. MCCARTHY, DR. J. MURRAY, THIRD JUDGE TO BE ANNOUNCED.**

Combined Spring Meeting, Faculty of Radiologists RCSI, 2004

Scientific Session 1

Friday, April 2nd, 2004

11:30am - 1:00pm: Scientific Session 1: Vascular and Interventional

Moderator: Dr. D. Malone, Chairman, Scientific Committee, Faculty of Radiologists

Time	Control Number	Title	Presenter	Hospital	Senior Author
11:30	Spr-04-P9	Narrowing of the Mesenteric Arteries in Patients with significant Renal Artery Stenosis	Johnston	St. James's Hospital	Meaney
11:39	Spr-04-P-6	Accuracy of voxel volume and algebraic methods for quantifying cerebral aneurysm volume by 3D- rotational digital subtraction angiography	Fanning	Beaumont Hospital	Thornton
11:48	Spr-04-P-10	MR portal venography: Comparison of fast acquisition True FISPsequence and contrast-enhanced MR angiography	Smith	St. James's Hospital	Keogan
11:57	Spr-04-P-12	The changing role of the vascular radiologist: the impact of 16 slice multidetector CT in diagnostic angiography.	Hanson	University Hospital of Wales	Gordon
12:06	Spr-04-P-5	Stenting of symptomatic and asymptomatic atherosclerotic lesions in the vertebral and carotid arteries: a case series	Fanning	Beaumont Hospital	Thornton
12:15	Spr-04-P-16	Percutaneous Transluminal Angioplasty of Below Knee Atherosclerotic Plaques.	Keeling	Beaumont Hospital	Lee
12:24	Spr-04-P-21	Prognostic factors in the recanalization of iatrogenic femoral artery pseudoaneurysms after treatment with percutaneous ultrasound guided thrombin injection.	Ryan	Vancouver General Hospital	Spielmann
12:33	Spr-04-P-13	Child-Pugh score evaluation and outcome in patients undergoing transjugular intrahepatic portosystemic (TIPS) shunt formation	O'Sullivan	Beaumont Hospital	Lee
12:42	Spr-04-P-29	Interventional Radiology in the Management of Hepatocellular Carcinoma- Preliminary Experience with an 'Evidence-Based' Management Algorithm.	Browne	St. Vincent's University Hospital	Malone
12:51	END				

Combined Spring Meeting, Faculty of Radiologists RCSI, 2004

Scientific Session 2

Friday, April 2nd, 2004

2.00pm - 3:20pm: Scientific Session 2: Biopsy & Imaging

Moderator: Dr. A. Brady, Honorary Treasurer, Faculty of Radiologists

Time	Control Number	Title	Presenter	Hospital	Senior Author
2:00	Spr-04-P-18	The importance of the transitional zone at repeat transrectal ultrasound guided prostate biopsy	Gough	University College Hospital, Galway	McCarthy
2:09	Spr-04-P-19	Pancreatic Mass Biopsy: Comparison 20G Fine Needle Trucut Biopsy (FNTB) with Fine Needle Aspiration Cytology (FNAC).	O'Connell	Beaumont Hospital	Lee
2:18	Spr-04-P-8	An audit of referrals for MRI to out rule spinal cord compression; how accurate are they?	McKenna	University College Hospital, Galway	McCarthy
2:27	Spr-04-P-22	The predictive value of the "CT-seat belt sign" for intraabdominal injuries in the setting of acute abdominal trauma.	Ryan	Vancouver General Hospital	Zwirewich
2:36	Spr-04-P-23	Unusual pattern of perforation in Gall Bladder inflammatory disease	Vusirikala	Waterford Regional Hospital	Kelly
2:45	Spr-04-P-28	The Clinical Impact of FDG PET on the Management of Patients with Colorectal Liver Metastases: A Comparison with Conventional Imaging	Sheehan	St. Vincent's University Hospital	Skehan
2:54	Spr-04-P-14	The role of ultrasound contrast agents in evaluating liver lesions	Hanson	University Hospital of Wales	Cochlin
3:03	Spr-04-P-27	Double Contrast MRI of Focal Liver Lesions In the Cirrhotic Liver: A Problem Solving Technique	Sheehan	St. Vincent's University Hospital	Malone
3:12	Spr-04-P-30	Use of Calogen as an oral contrast medium for the evaluation of the gastric wall with MRI	Lohan	University College Hospital, Galway	McCarthy
3:21	END				

Combined Spring Meeting, Faculty of Radiologists RCSI, 2004

Friday, April 2nd 2004

The Schering Lecture Session:

Moderator: Dr. E. Breatnach, Honorary Secretary, Faculty of Radiologists

4:00 - 6:00 PM Prostate Carcinoma in Ireland: Management, Imaging and Future Directions

Time	Title	Speaker	Institution
16:00	Screening for Prostate Carcinoma: An Epidemiologist's Viewpoint	A. Gavin	Queen's University, Belfast
16:20	How I manage early prostate cancer	D. Quinlan	St. Vincent's University Hospital, Dublin
16:50	Trans-rectal Prostate Biopsy: An Outpatient Approach	A. Brady	Mercy University Hospital, Cork
17:10	Staging Prostate Carcinoma: Imaging Techniques	C. Collins	St. Vincent's University Hospital & St. Luke's Hospital, Dublin
17:30	Radiotherapy	M. Maher M. McNicholas	Mater Misericordiae Hospital, Dublin Mater Misericordiae Hospital, Dublin
18:00	Discussion of Scenarios (Panel & Audience)	P. McCarthy	University College Hospital, Galway
18:30	END		

Combined Spring Meeting, Faculty of Radiologists RCSI, 2004

Scientific Session 3

Saturday 3rd April 2004

9:00am - 10:45am: Scientific Session 3: Musculoskeletal & Breast

Moderator: Dr. D. O'Keefe, President, Radiological Society of Ireland

Time	Control Number	Title	Presenter	Hospital	Senior Author
9:00	Spr-04-P-1	Radiofrequency ablation of osteoid osteoma with cooled radiofrequency probes and impedance control energy delivery.	Cantwell	Mater Misericordiae Hospital	Eustace
9:09	Spr-04-P-2	MRI Assessment of Treated Osteoid Osteoma	Cantwell	Mater Misericordiae Hospital	O'Byrne
9:18	Spr-04-P-7	Rapid Automated Measurement of Body Fat Tissue Distribution from Whole Body MRI	Brennan	Cappagh Orthopaedic Hospital	Eustace
9:27	Spr-04-P-24	MR Imaging in the Diagnosis of Footballers Ankle.	Cunningham	Cappagh Orthopaedic Hospital	Eustace
9:36	Spr-04-P-20	Osteoplasty outside the spine: an overview.	Ryan	Vancouver General Hospital	Munk
9:45	Spr-04-P-25	MR Imaging of failed Total Hip Replacements (THR) - Abductor Avulsion Following THR.	Cunningham	Cappagh Orthopaedic Hospital	Eustace
9:54	Spr-04-P-26	MR Spectroscopy in the Assessment of Suspected Muscular Dystrophies.	Cunningham	Cappagh Orthopaedic Hospital	Gilligan
10:03	Spr-04-P-4	Prone Table Stereotactic Breast Biopsy	Manavalan	Craigavon Area Hospital	McAteer
10:12	Spr-04-P-11	Impact of HRT on Breast Screening: Increased Recall Rate, Biopsy Rate and Cancer Diagnosis	Smith	Mater Misericordiae Hospital	Flanagan
10:21	Spr-04-P-15	Mammographic Findings in Ductal Carcinoma in Situ	Doyle	Cork University Hospital	Barry

END 10:30

Combined Spring Meeting, Faculty of Radiologists RCSI, 2004

Saturday, April 3rd 2004

Lecture Session: Saturday

Moderator: Dr. D. McInerney, Dean, Faculty of Radiologists

11:45 - 13:00 Review Topics

Time	Title	Presenter	Institution	Sen. Author
11:45 - 12:00	Current Neuroradiological Options	Worthington	Royal Victoria Hospital, Belfast	Flynn
12:00 - 12:15	Teleradiology in Practice: The NEHB Experience	Towers	Navan General Hospital	Towers
12:15 - 12:30	Percutaneous Nephrolithotomy: How we do it	McCarthy	University College Hospital, Galway	McCarthy
12:30 - 12:45	Evaluation of Disease in Pregnancy using MRI	Smith	St James's Hospital, Dublin	Keogan
12:45 - 13:00	Hypovolaemic Shock Syndrome in Adults: Findings on Abdominal CT	Ryan	Sunnybrook Health Sciences Centre, Toronto & Cork University Hospital	Ryan

Combined Spring Meeting, Faculty of Radiologists RCSI, 2004

Poster Presentations

Control No.

QUIZ POSTER

Spr-04-P-31

Differential Diagnosis – MRC (Magnetic Resonance Confectionary)

C. Roche

Radiology Department, University College Hospital, Galway

(A PRIZE FOR THE BEST ANSWER HAS BEEN PROVIDED BY SCHERING
ENTRY FORMS WILL BE AVAILABLE AT THE POSTER)

Spr-04-P-1

The Problems with Paediatric Plumbing

R. Bell, A. Paterson, J. Turner, L. E. Sweeney.

Department of Radiology, Royal Belfast Hospital for Sick Children, Belfast

Spr-04-P-2

Testicular varicoceles: Radiological diagnosis and treatment.

P Beddy, T Geoghegan, R. Browne and WC Torreggiani.

Department of Radiology, Adelaide and Meath Hospital, Dublin

Spr-04-P-3

Understanding the synchronisation of CT data acquisition with cardiac motion

L P. Lawler

The Russell H. Morgan Department of Radiology and Radiologica Science, Johns Hopkins University and Medical Institution, Maryland, USA

Spr-04-P-4

Patterns of collateral pathways in extrahepatic portal hypertension.

Leo P. Lawler, Ihab Kamel,

The Russell H. Morgan Department of Radiology and Radiological Science, Johns Hopkins University and Medical Institution, Maryland, USA

Spr-04-P-5

Adult UPJ obstruction-Current multidetector row CT and post-processing insights.

L P. Lawler

The Russell H. Morgan Department of Radiology and Radiological Science, Johns Hopkins University and Medical Institution, Maryland, USA

Spr-04-P-6

Combined PET/CT in colorectal carcinoma-The value of CT.

L.P. Lawler, I.Kamel, R.Wahl

The Russell H. Morgan Department of Radiology and Radiological Science, Johns Hopkins University and Medical Institution, Maryland, USA

Spr-04-P-7

Why aren't anatomically suitable patients for Endoluminal Graft being stented ?

L. Johnston, P.K. Ellis, P.T. Kennedy, A. J. Collins, A. Mc Kinley, P.H. Blair.

Department of Radiology, Royal Victoria Hospital, Belfast, N. Ireland.

Spr-04-P-8

Cross-Sectional Imaging of The Vena Cava: Techniques, Pathology & Pitfalls

T. Scanlon, E. Kavanagh, N. Hegarty, H.M. Fenlon.

Radiology Department, Mater Misericordiae Hospital, Dublin

Spr-04-P-9

Radiological Imaging of Vascular Hepatic Injuries

G.C.Hargaden, E.C.Kavanagh, H.Fenlon

Radiology Department, Mater Misericordiae Hospital, Dublin

Spr-04-P-11

The Imaging of Mesotheliomas

W. Benfyed, T. Geoghegan, A. Byrne. W.C. Torreggiani.

The Department of Radiology, The Adelaide & Meath Hospital, Dublin.

Spr-04-P-12

Adventures in non-medical radiography

A.A. Alhajeri, D. McKenna, B. Tuohy, C. Roche, P. McCarthy

Department of Radiology, University College Hospital, Galway

Spr-04-P-13

Review of the Follow Up of Testicular Microlithiasis in the Royal Victoria Hospital, Belfast (1998-2003).

J. McKillen, PT Kennedy

Radiology Department, Royal Victoria Hospital, Belfast

Spr-04-P-14

Dural Sinus Thrombosis.

Hurley MC; Fanning N; O'Dwyer JA

Radiology Department, Beaumont Hospital, Dublin

Spr-04-P-15

Percutaneous Radiological Gastrostomy: Newer Modifications.

Hurley MC; Given M; Lyon SM; Lee MJ

Radiology Department, Beaumont Hospital, Dublin

Spr-04-P-16

The neuro-imaging findings of alcohol misuse.

G. Mc Auley, P. Govender, T. Geoghegan, W.C. Torreggianni.
Department of Radiology, The Adelaide and Meath Hospital, Dublin

Spr-04-P-17

Imaging findings of complications post bone marrow transplantation

S. Ford, C. Johnston, E. Laffan, J. McCann, M.T. Keogan;
Diagnostic Imaging Department, St. James's Hospital, Dublin

Spr-04-P-18

Non-Accidental Injury (NAI): A Review of Department Differences in Imaging Protocols in Wales, SW England & West Midlands

A Butler, J Bowen and F Williams.
Department of Diagnostic Imaging, Nevill Hall Hospital, Abergavenny, Wales.

Spr-04-P-19

Suspected Child Abuse: What Radiological Test Should Be Performed? A Systematic Review.

A. Butler, S. Datta, S. Maguire, A. Kemp, M.Mann, J.R. Sibert, S Harrison, S. Morris
Welsh Child Protection Systematic Review Group. University of Wales College of Medicine, Academic Centre, Llandough Hospital, Cardiff, Wales

Spr-04-P-20

Pictorial review of imaging findings in sarcoidosis

S.B Brennan, M.E Hurley, M. Behan, J. Stack, J. Murray, E. Breatnach.
Department of Radiology, Mater Misericordiae Hospital, Dublin

Spr-04-P-21

Web Site design for the Radiologist: A primer.

A G Ryan, Luck J. Louis and William C Yee
Department of Radiology, Vancouver General Hospital, Vancouver, Canada.

Spr-04-P-22

Interventional Radiology in the Management of Pain: A Review of the Expanding Range of Available Procedures.

A.G. Ryan, L.J. Louis, P.L. Munk Vancouver General Hospital, Vancouver, BC, Canada.
Department of Radiology, Vancouver General Hospital, Vancouver, Canada.

Spr-04-P-23

Colitis: correlation of CT findings with histopathological diagnosis.

S. McKenna, T. Geoghegan, M. Jeffers, W.C. Torreggianni.
Department of Radiology, Adelaide / Meath Hospital, Dublin

Spr-04-P-24

Imaging and diagnostic features of musculoskeletal tuberculosis

K Shashi¹, V Murty², E Nawaz³, N Ramesh¹
¹Apollo Hospital, Hyderabad India; ²Waterford General Hospital, Ireland; ³St.Columcille's Hospital, Ireland

Spr-04-P-25

Imaging in Splenic Disorders

K Shashi¹, V Murty², E Nawaz³, N Ramesh¹

¹Apollo Hospital, Hyderabad India; ²Waterford General Hospital, Ireland; ³St.Columcille's Hospital, Ireland

Spr-04-P-26

Imaging of Cysticercosis: Revisited

K Shashi¹, V Murty², E Nawaz³, N Ramesh¹

¹Apollo Hospital, Hyderabad India; ²Waterford General Hospital, Ireland; ³St.Columcille's Hospital, Ireland

Spr-04-P-27

Inferior vena cava abnormalities: Imaging features.

K Shashi¹, V Murty², E Nawaz³, N Ramesh¹

¹Apollo Hospital, Hyderabad India; ²Waterford General Hospital, Ireland; ³St.Columcille's Hospital, Ireland

Spr-04-P-28

Abdominal and Pelvic lesions that present with spontaneous haemorrhage

N Sheehy, E Laffan, MT Keogan, R McDermott

Radiology Department, St. James's Hospital, Dublin

Spr-04-P-29

The role of magnetic resonance imaging in the assessment of patients post repair of aortic coarctation

D P Deva, S Shine, J Moriarty, J G Murray, A E Wood, J M Redmond, K Walsh

Departments of Radiology, Cardiology and Cardiothoracic Surgery, Mater Misericordiae Hospital, Dublin

Spr-04-P-30

Imaging of The Complications of Prosthetic Materials

S Walsh, D Lohan, I Davidson, D O'Keeffe

Radiology Department, University College Hospital, Galway

Combined Spring Meeting, Faculty of Radiologists RCSI, 2004

Oral Presentations: Bibliography

Control No.

Spr-04-S-1

“Radiofrequency ablation of osteoid osteoma with cooled radiofrequency probes and impedance control energy delivery”

C. Cantwell, S. Eustace.

Department of Radiology, Mater Misericordiae Hospital, Dublin.

Spr-04-S-2

“MRI Assessment of Treated Osteoid Osteoma”

C. Cantwell, R. Flavin, S. Eustace, J. O’Byrne

Department of Radiology, Mater Misericordiae Hospital & Cappagh Orthopaedic Hospital, Dublin.

Spr-04-S-4

Prone Table Stereotactic Breast Biopsy

L. Manavalan, E McAteer

Department of Radiology, Craigavon Area Hospital, Portadown, Northern Ireland.

Spr-04-S-5

Stenting of symptomatic and asymptomatic atherosclerotic lesions in the vertebral and carotid arteries: a case series

NF Fanning, A Fulton, J Moroney*, P Brennan, J Thornton*

Department of Radiology and Neurology*, Beaumont Hospital, Dublin

Spr-04-S-6

Accuracy of voxel volume and algebraic methods for quantifying cerebral aneurysm volume by 3D- rotational digital subtraction angiography

NF Fanning, H O’Dwyer, JA Bowden, P Brennan, J Thornton

Department of Radiology and Neurology*, Beaumont Hospital, Dublin

Spr-04-S-7

Rapid Automated Measurement of Body Fat Tissue Distribution from Whole Body MRI

D Brennan1, P F Whelan2, O Ghita2, K Robinson2, J O’Brien1, R Sadleir2, S Eustace1

Department of Radiology, Cappagh National Orthopaedic Hospital1 and Vision Systems Group, Dublin City University2

Spr-04-S-8

An audit of rerrals for MRI to out rule spinal cord compression; how accurate are they?

P.J. Whooley, D.A. McKenna, Amjad Iqbal, Peter McCarthy.

Dept of Radiology, University College Hospital, Galway.

Spr-04-S-9

Narrowing of the Mesenteric Arteries in Patients with significant Renal Artery Stenosis

C. Johnston, S Ford, J Mc Cann, E Laffan, JFM Meaney

Radiology Department, St. James's Hospital, Dublin.

Spr-04-S-10

MR portal venography: Comparison of fast acquisition True FISPsequence and contrast-enhanced MR angiography

C.S. Smith, N. Sheedy, N. McEniff, J.F. Meaney, M.T. Keogan

Radiology Department, St James Hospital, Dublin

Spr-04-S-11

Impact of HRT on Breast Screening: Increased Recall Rate, Biopsy Rate and Cancer Diagnosis

CS Smith, S Boran, M McNicholas, M Kerin, F Flanagan.

Radiology Department, Mater Miscercordiae Hospital, Dublin

Spr-04-S-12

The changing role of the vascular radiologist: the impact of 16 slice multidetector CT in diagnostic angiography.

Hanson JM, Taneja M, Roach HD, Wood A, Gordon A.

Radiology Department, University Hospital of Wales, Cardiff, Wales.

Spr-04-S-13

Child-Pugh score evaluation and outcome in patients undergoing transjugular intrahepatic portosystemic (TIPS) shunt formation

O'Sullivan P., McCann J., O'Dwyer J., McEniff N., Lee MJ

Departments of Academic Radiology, Beaumont and St. James's Hospital, Dublin

Spr-04-S-14

The role of ultrasound contrast agents in evaluating liver lesions

Hanson JM, Roach HD, Yong A, Cochlin D.

Department of Radiology, University Hospital Wales, Cardiff, Wales

Spr-04-S-15

Mammographic Findings in Ductal Carcinoma in Situ

D Doyle, M Ryan, J Barry

Department of Radiology, Cork University Hospital, Cork

Spr-04-S-16

Percutaneous Transluminal Angioplasty of Below Knee Atherosclerotic Plaques

Keeling A.N., Lee M.J.

Department of Academic Radiology, Beaumont Hospital, Dublin

Spr-04-S-18

The importance of the transitional zone at repeat transrectal ultrasound guided prostate biopsy

N Gough, C Meehan, P.A.McCarthy

Department of Radiology, University College Hospital, Galway.

Spr-04-S-19

Pancreatic Mass Biopsy: Comparison 20G Fine Needle Trucut Biopsy (FNTB) with Fine Needle Aspiration Cytology (FNAC).

O'Connell A-M, Keeling AN, Lee MJ.

Radiology Department, Beaumont Hospital, Dublin

Spr-04-S-20

Osteoplasty outside the spine: an overview.

A.G. Ryan, P. O'Brien, H. Choudur, G. M. Legiehn, P. L. Munk;

Department of Radiology, Vancouver General Hospital, Vancouver, Canada.

Spr-04-S-21

Prognostic factors in the recanalization of iatrogenic femoral artery pseudoaneurysms after treatment with percutaneous ultrasound guided thrombin injection.

A G Ryan, A E Padilla-Thornton, R S Ryan, S D Chang, C V Zwirewich, A L Spielmann.

Department of Radiology, Vancouver General Hospital, Vancouver, Canada.

Spr-04-S-22

The predictive value of the "CT-seat belt sign" for intraabdominal injuries in the setting of acute abdominal trauma.

A.G. Ryan, P. O'Brien, J. MacPherson, A.R. Buckley, C.V. Zwirewich

Department of Radiology, Vancouver General Hospital, Vancouver, Canada.

Spr-04-S-23

Unusual pattern of perforation in Gall Bladder inflammatory disease

M. Vusirikala, P. K. Moghe, I.M.G. Kelly

Department of Radiology, Waterford Regional Hospital, Waterford.

Spr-04-S-24

MR Imaging in the Diagnosis of Footballers Ankle.

PM Cunningham, S Eustace.

Department of Radiology, Cappagh National Orthopaedic Hospital, Dublin.

Spr-04-S-25

MR Imaging of failed Total Hip Replacements (THR) - Abductor Avulsion Following THR.

PM Cunningham, A. Twair, M Ryan, T Powell, M O'Connell, S Eustace.

Department of Radiology, Cappagh National Orthopaedic Hospital, Dublin.

Spr-04-S-26

MR Spectroscopy in the Assessment of Suspected Muscular Dystrophies.

PM Cunningham, G Gorman^, J Redmond^, S Eustace*, T. Lynch^^, P Gilligan**.*

*Department of Radiology, Cappagh National Orthopaedic Hospital and **Mater Private Hospital, ^Department of Neurology, St. James Hospital,

^^Department of Neurology, Mater Misericordiae University Hospital.

Spr-04-S-27

Double Contrast MRI of Focal Liver Lesions In the Cirrhotic Liver: A Problem Solving Technique

Sheehan JJ, Harte SE, McKenna C, Malone DE

Department of Radiology, St. Vincent's University Hospital, Dublin

Spr-04-S-28

The Clinical Impact of FDG PET on the Management of Patients with Colorectal Liver Metastases: A Comparison with Conventional Imaging

Sheehan JJ, Ridge CA, Ward EM, Harte SE, Duffy G, Malone DE, Skehan SJ

Department of Radiology, St. Vincent's University Hospital & Blackrock Clinic

Spr-04-S-29

Interventional Radiology in the Management of Hepatocellular Carcinoma- Preliminary Experience with an 'Evidence-Based' Management Algorithm.

Browne LP, Cunningham PM, McCormick PA, Geoghegan J*, Malone DE.*

Departments of Radiology and the National Liver Unit*, St Vincent's University Hospital, Dublin

Spr-04-S-30

Use of Calogen® as an Oral Contrast Medium in the Evaluation of the Gastric Wall in MRI

D Lohan, S Walsh, P McCarthy

Radiology Department, University College Hospital, Galway

NOTES
